Terms of Service

Last Updated: September 13, 2026

1. Acceptance of Terms

By using BookmarkForge, you agree to these Terms of Service. If you do not agree, do not use the application.

2. Description of Service

BookmarkForge is a local-first knowledge management application that allows you to:

- Save and organize bookmarks
- Create and edit documents
- Use AI-powered features (locally or via cloud providers)
- Sync data between your devices using peer-to-peer connections

3. Pricing & Licenses — Lifetime of v1 (No Subscriptions)

Individual licenses are sold as Lifetime for a major version — pay once, own v1 forever. No monthly billing. Refunds: 30 days via Whop. Payments handled by Whop (card, PayPal, crypto; we never see card data).

- **Free — \$0 forever:** 2,500 bookmarks on any device (each keeps its own vault), smart search — full-text + semantic, the feature Raindrop charges yearly for — knowledge graph, AI with your own API key, basic templates, JSON/HTML export, PWA + extensions. At 2,500, reading, search and export never stop; only new saves pause.
- **Pro Lifetime v1:** Early Bird **\$59** (200 licenses), then **\$79** regular, later **\$89–\$99** after traction. Includes: unlimited bookmarks, 5 devices + P2P sync, local AI (WebLLM/Ollama) + RAG + Expert agents, flashcards, PDF/OCR, 10+ export formats + encrypted backups, AES-GCM vault. *Lifetime of v1:* all v1.x bugfixes + minor features forever + 12 months of feature updates from purchase; security updates forever. After month 13 you keep v1 functional, only without new features.

- **Upgrade without subscription:** future majors (v2, v3) are separate products: **\$89 for new customers, \$35 for v1 owners (60% off)**. Skip the major and v1 keeps working. That's recurring revenue without forcing a subscription — same model as Affinity/Sketch/Sublime.
- **Legal line:** *Lifetime license for BookmarkForge v1. Includes all v1.x updates and 12 months of feature updates. Security updates forever. Future major versions (v2, v3) 60% off for existing owners. 30-day refund via Whop.*

4. Support SLA

Single maintainer. The vault is encrypted — we cannot see your data and we never ask for your vault password or 24-word recovery phrase.

- **Free:** community — Help Center ([/help](#)) + GitHub Discussions, best effort. Search BF-E* code first + paste diagnostic.
- **Pro:** email bookmarkforge@proton.me (subject: Pro) — **48h business days** (Mon–Fri). Include diagnostic from Settings → Advanced → Copy diagnostic.
- Before contacting us, use **Settings → Advanced → Copy diagnostic** or [Help → Diagnostics](#). The diagnostic contains only counts/versions (bookmarks, storage %, build hash) — never vault content, URLs or prompts. See Help § BF-E* for error codes.
- **Forgot password (BF-E101):** we cannot recover it. When you create a vault we show a 24-word recovery phrase **once** — write it on paper. Without it the vault is unrecoverable, by design.

5. Local-First Nature

You understand and agree that:

- BookmarkForge runs entirely in your browser
- All data is stored locally on your device
- We do not host, store, or backup your data on our servers
- You are responsible for backing up your data using the export feature

6. User Responsibilities

You agree to:

- Maintain backups of your important data
- Keep your vault password secure (we cannot recover it without the 24-word recovery phrase)
- Use the application in compliance with applicable laws

- Not use the application for illegal purposes

7. AI Features

When using AI features:

- You are responsible for the content of your prompts
- Cloud AI providers have their own terms of service and privacy policies
- We do not guarantee the accuracy of AI-generated content
- Local AI models require compatible hardware (WebGPU support)

8. Limitation of Liability

BookmarkForge is provided "as is" without warranties of any kind. We are not liable for:

- Data loss due to browser clearing storage
- Hardware failures
- Incompatibility with your device
- Errors in AI-generated content

9. Intellectual Property

- BookmarkForge's code and design are copyrighted
- Your content (bookmarks, notes, documents) remains yours
- We claim no ownership over your data

10. Termination

Since BookmarkForge runs locally, there is no account to terminate. You can stop using the application at any time by closing your browser.

11. Governing Law

These terms are governed by applicable laws. Any disputes shall be resolved in the appropriate courts.

12. Contact

For questions about these terms:

- Email: bookmarkforge@proton.me
